

CLAIMS

1 1. A method for generating a work-in-progress (WIP) tracking report reflecting a
2 progress of WIP through a semiconductor supply chain of vendors, the method comprising the
3 steps of:

4 receiving a first WIP update from a first vendor;

5 updating a data representation of the semiconductor supply chain to reflect the first WIP
6 update; and

7 generating a WIP tracking report from the data representation of the semiconductor
8 supply chain, wherein a volume of WIP is measured in expected good parts.
